

# TTN Laptops - TTN Session

Dell Model & Serial No.	HP Model & Serial No.
User: ttn Password:1982	
Linux Mint 21.3 Cinnamon	
Python3	
PyCharm IDE	

guimain.sh

Start up applications  
 name: ttn Command 'bash /home/ttn/guimain.sh'  
 Shell script that calls each python script in sequence on exit from the previous script  
 Python3 /home/ttn/PyCharmProjects/ttn/load\_mags\_gui.py  
 Python3 /home/ttn/PyCharmProjects/ttn/25sqlite.py  
 Python3 /home/ttn/PyCharmProjects/ttn/Copy\_gui.py  
 Python3 /home/ttn/PyCharmProjects/ttn/Load\_mags\_gui.py  
 Python3 /home/ttn/PyCharmProjects/ttn/torch/TTN\_SQLite.py  
 Python3 /home/ttn/PyCharmProjects/ttn/exit\_or\_close.py

load\_mags\_gui.py

Checks Fasthost server for new edition of The Northumbrian or TTM.  
 If new edition found runs 'download\_mags\_from\_server.py'

25sqlite.py

Record and Edit  
 (Audio processing, WAV-MP3, gain set, file naming?)

copy\_gui.py

Copy audio files to master sticks

TTN\_Sqlite.py

Runs listener wallet admin process, scan & audio prompts  
 (Calls upoad.py and uploads TTN files to Fasthost & TNF + TNF API call)  
 Downloads registrar admin data  
 Listener wallet address card return and issue  
 Uploads registrar admin data

exit\_or\_close.py

Provides on screen option to Exit program but not close laptop.

## List of Scripts

Copy on server version unconfirmed

Copy on server version confirmed
